Battle of Haldon Hill, 1333.

SUGAR TRUSTS.

It is estimated that the sugar trust has made a profit of \$20,000,000 during the last year in excess of the profits of the sugar refiners before the trust was formed, all of which came out of the people without any return to the people. Some one might call that robbery, but then the trust is such a harmless little creature.

It is not difficult to tell how the sugar trust, but it seems difficult to do the killing. So long as the democratic party insist on maintaining a high tariff on sugar for the purpose of pleasing one democratic state, just so long will there be a sugar trust. The time will never come when it will be just to maintain a tariff on sugar for the simple reason that its production in this country can not be encouraged by a tariff. Louisiana is the only state that grows the cane from which sugar is made. Its production is decreasing rather than increasing. Not one-tenth part of the sugar consumed in the United States is produced in Louisiana. Why then should the tariff be maintained?

The principle on which a protective tariff is levied on any article is that it will encourage the production of that article in this country. Thus the impost duties on manufactured iron, silks, woollen goods of all kinds, and scores of other articles, have increased the manufactures in the United States amazingly, so that the prices of these articles are even lower now than they were under free trade.

But in the case of sugar its production cannot be increased by protection. The territory that can produce the sugar cane is too limited—confined practically to one state—the only way the production of sugar can be encouraged in this country is to follow the advice of Senator Sherman and give a government bounty to the manufacturers of beet sugar. If Germany and France can make millions of tons of beet sugar annually, and make it of such a quality that it will bear the test of comparison with the Louisiana sugar, why can't the United States do the same thing? The soil is well adapted to the growing of the sugar beet, and there is no question as to the success of the manufacture of an excellent quality of sugar from it. The machinery is well improved. The cost is moderate. The growth of the beet is not as uncertain as that of hops or tobacco, while there is far more profit in the business.

There are just two ways of breaking up the sugar trust—reduce the tariff on sugar; or begin the manufacture of sugar from beets.

JOHNSTOWN REVIVING.

Speaking of the relief work at Johnstown the New York Mail and Express appropriately remarks: For some time after their great disaster the people in Johnstown were in a kind of dazed condition. All the ordinary conditions of life were changed. Families were broken up; houses were swept away; mills and shops were gone. The ordinary routine was altogether upset. There was nothing to do, and nothing to eat or wear or work with, except what was furnished by relief committees.

At last, however, there has been a resumption of the usual habits of life. The Cambria Iron Works and the Car Spring Works, upon which most of the workmen depended for their livelihood, have resumed operations. Houses or shanties have been built to live in, stores have been put up and stocked with goods and the ordinary routine has begun again.

Meantime, as Governor Beaver says, "Since June 1, no man, woman or child in Johnstown has gone hungry, naked, or without shelter." If any one wants to know what good the vast contributions sent in from all parts of the land have done, there is the answer in one short sentence: an answer complete and altogether satisfactory. That there were mistakes made at Johnstown nobody doubts. It is human to err. On the whole, however, the affairs there, especially since the state took charge of them, have been well managed. The people have been protected against hunger and nakedness and exposure to the elements. They have been helped until now they are able once more to help themselves. All the thousands who contributed something for the sufferers can feel that their contributions effected their purpose.

Another frightful disaster is reported from China, which has had its share of floods in recent times, though accurate information regarding the destruction of life thereby in that thickly peopled country is almost impossible to obtain. The latest occurrence of this nature was on June 2, when 6,000 lives are said to have been lost. This is easily conceivable; but when it is stated that the level country was flooded with 26 feet of water, that is much harder to believe. Still this calamity is trifling compared with that of September, 1887, when, according to the report of an Imperial Commissioner, 100,000 persons lost their lives.

The contemplated addition of seventy formidable new war vessels to the British navy within the next five years ought to go a long way toward strengthening the traditional supremacy of England on the seas. According to the programme of the naval authorities of Great Britain ten of the new vessels are to be armored

battle ships of the heaviest type, while the rest will be cruisers and torpedo boats of great swiftness and efficiency.

The more the Ohio Democrats think of the campaign which is before them, the more they are inclined to take to the woods without leaving their postoffice address behind them.

New York Tribune: The report that an English syndicate has been making an offer for Independence Hall in Philadelphia probably needs confirmation.

WHICH IS JEKILL AND WHICH HYDE?  
"Brothers, let us get together," is the democratic cry. It was shouted first by Randall, as he wiped a bead of sweat from his forehead, very heavy with the heat of the day. "Brethren, let us get together."

BOND AND STOCK TAXATION.  
Propositions introduced in the Constitutional Convention.  
BISMARCK, D. T., July 19.—A proposition was introduced in the constitutional convention today by uniform rule all money, credits, and investments in bonds, stocks, joint-stock companies, or otherwise, and all personal property according to its true value in money, but improvements and cultivation of the soil shall not be considered when arriving at the cash value of lands. Other articles introduced propose that executive nominations shall be considered in open session of the Senate; make the keeping of a labor black-list a felony; prohibit trusts under penalty of forfeiture of charters and franchises; and establishing boards of arbitration to decide differences between corporations and employees.

The joint commission for the division of property between the States of North and South Dakota met again, but is still a long way from an agreement as to the basis of division. The dispute is now over which of the two sections has received most from the government.

SIoux FALLS, D. T., July 19.—The only business before the convention was the reading of reports from minor committees. The judiciary committee has voted to divide the State into eight judicial districts.

HELENA, M. T., July 19.—Reports from committees were received by the convention favoring the following propositions: Providing a free school system; making the Governor, Superintendent of Public Instruction, Secretary of State, and Attorney-General a State board of land commissioners; vesting the control of the State university and other State educational institutions in a State board of education, to consist of eleven members, and of which the Governor, Superintendent of Public Instruction, and Attorney-General shall be ex-officio members.

OLYMPIA, W. T., July 19.—The constitutional convention amended and referred back a portion of the judiciary committee's report providing for five Supreme judges, and giving the Legislature power to increase that number.

BOISE CITY, Idaho, July 19.—Committees are fast reporting drafts of resolutions for the constitution to the convention. The education committee reports in favor of free schools and against religious tests for teachers or pupils. The election committee makes two reports, both favoring the test oath.

Territorial Convention at Guthrie.  
GUTHRIE, I. T., July 19.—The territorial convention called for the purpose of framing a scheme for provisional government, met here at noon today. The convention which was held Monday at Frisco in opposition to the present convention has had the effect of limiting the representation of the present convention only from the northern portions of the new country—about seventy-five in number. The convention organized with the election of John A. McDonald as temporary chairman. After his appointment the committee on credentials and an adjournment was taken until its members shall have agreed upon a report.

WOMEN WITH PALE, COLORLESS FACES who feel weak and discouraged, will receive both mental and bodily vigor by using Carter's Iron Pills, which are made for the blood, nerves and complexion.

Expelled Dr. McDow.  
CHARLESTON, S. C., July 19.—Dr. McDow, the slayer of Capt. Dawson, was expelled from the South Carolina Medical society today. At a special meeting of the society held at the city hall, resolutions were passed: "It has been brought to the notice of the society that Dr. Ballard McDow has been proven by his own confession guilty of immoral, unprofessional and ungentlemanly conduct and as, after due notification, Dr. McDow has failed to appear before the society to exonerate himself from the said charges, Resolved, That he be expelled from the body."

Hydrophobia Follows a Cat Bite.  
MINNEAPOLIS, Minn., July 19.—Nils Strand is at St. Barnabas hospital suffering terribly from the effects of a cat bite. He was employed on the county surveyor's staff at Hurd's about the 10th or 15th of June. He slept in a tent, and about midnight a cat entered and bit him. He was taken to the hospital recently and now shows every sign of hydrophobia. It is hard to tell yet whether he will recover. The sight of water greatly distresses him and he has been having severe spasms.

Paying Out the Johnston Funds.  
JOHNSTOWN, Pa., July 19.—To-day Judge Cummins and Banker Thompson, having charge of the relief funds, began paying out money to the sufferers. Up to noon \$6,000 had been paid out, most of the checks being for \$50, the lowest amount paid to a single sufferer.

Dr. B. MINOR, the eminent physician of Detroit, Mich., will visit every town in this country during the summer. Anyone suffering with weak eyes, or eyes abused by inferior glasses, should not fail to see him. Orders left at the post-office will be promptly attended to. No extra charge for examining or visiting patients at their homes.

ADVICE TO MOTHERS.  
Mrs. WILSON'S SOUTHERN SYRUP is said to be the best for children's teething. It soothes the child, softens the gums, allays all pain, cures wind colic, and is the best remedy for diarrhoea. 25c a bottle.

A PRIVATE EXECUTION.

MINNESOTA'S FIRST HANGING UNDER A NEW LAW.  
Albert Bulow, a Swedish immigrant, was hanged at 1:32 this morning for the murder of Franklin Eich.

LITTLE FALLS, Minn., July 19.—Albert Bulow was hanged at 1:32 this morning for the murder of Franklin Eich. This is the first execution to take place under the new law providing that criminals shall be executed in the strictest privacy and that no newspaper man shall be present. The law also makes it a misdemeanor for any person to publish more than the bare announcement of the fact that the criminal has been executed. The law furthermore provides that all executions shall take place between the hours of 1 and 5 a. m.

Bulow's last day developed no special incident. He had retired to rest at 1 a. m. and slept soundly until 8, but he awoke in a rather chafy condition and severely touched his breakfast. During the afternoon he was less composed than usual, but exhibited a great amount of cool nerve. He did not sing his hymn, as was expected, but he talked with the warden and seemed prepared for the ordeal before him. As the day wore along his nervousness increased, and finally when at 4 o'clock the Rev. Donavan of the Congregational church called to see him Bulow listened to what he had to say. Up to this time he had refused to see any clergyman.

The crime for which Bulow suffers was a most cold-blooded murder. The victim was Franklin Eich, a well-to-do bachelor farmer living at Backwin, about ten miles south of here. Eich owned a fine team and it was in gain possession of the team that Bulow murdered him.

KILLED A POSTMASTER.

Rube Burrows, the Arkansas Train Robber, Turns Up in Alabama.  
BIRMINGHAM, Ala., July 19.—A special dispatch says that yesterday Postmaster Gray, at Gain, Lamar county, was shot and killed by a man who escaped. Gray lived an hour and gave the following account of the affair: A few days ago a package came to the office addressed "Cain." No person living bearing that name, he returned it to the sender. A man named Burrows called for the package yesterday, and being told it had been returned asked Gray if he had seen its contents. Gray said yes, upon which Burrows shot him, and then attempted to shoot Mrs. Gray and her sister. Gray said the package had come to the office partly open and he could not help seeing that it contained a white mask. Gray also said Burrows was the same Rube Burrows, the Arkansas train robber, who escaped from the officers at Montgomery, Ala., a year or so ago.

It will be remembered that Rube and Jim were in Montgomery and a police officer had them in charge, taking them to police headquarters. At the foot of the steps both dashed for liberty. Rube escaped, shooting a printer named Rube, who tried to intercept them. Rube was subsequently surrounded and shot by the officers, but disappeared in the swamps, since which time he has not been heard of till now.

BATTLE WITH COUNTERFEITERS.

The Notorious Jim Guyon Wounded at Dayton, Ohio, After a Bloody Fight.  
DAYTON, Ohio, July 17.—Secret service men in disguise have for a long time been dickering with Nelson Driggs and his wife, who keep the United States hotel in the country two miles from here, for \$21,000 in counterfeit money. To-day the deal was to be effected, and it now develops that the notorious counterfeiter, Jim Guyon, for whom the Government has been looking for nine years, brought the bogus money here for delivery. While Secret Service Officer John S. Bell was in the hotel eight other detectives surrounded the building to arrest the gang. Guyon remained in hiding in the woods and as soon as he discovered the trap that had been laid for him he began to retreat, firing as he ran through the thicket. The officers returned the fire and forty shots were discharged. Officer A. Donnell of Virginia was shot on the right side of the head, but not fatally. Guyon escaped, though it was thought he was wounded. Nelson Driggs, who is an old offender, and his wife and Mrs. Mary Brown are under arrest, and Officer Bell secured \$25,000 of the bogus money.

CHARGED WITH CONSPIRACY.

Colorado Officials Arrested for Defrauding the State.  
DENVER, Col., July 18.—The grand jury, which has been investigating charges of corruption against State officials in connection with the purchase of supplies and furniture for the use of the last general assembly, adjourned last night. In their report they severely criticized the officers, and to-day warrants were issued for the arrest of Secretary of State James Rice, Sheriff Weber and his partner, George H. Graham of the furniture house of Graham & Weber, who furnished the legislative rooms; W. H. Lawrence & Co., who supplied the assembly with stationery; and State Printer Collier & Co., all being charged with conspiracy to defraud the State. Secretary Rice and Sheriff Weber are now in the East and could not be served with warrants, but others were arrested and gave bail in the amount of \$1,000 to \$1,500.

CAUGHT THE FIRE-BUG.

An Incendiarist Run Down After Attempting to Commit Suicide.  
RANXON, Maine, July 19.—Charles S. Gilman, a jeweler occupying part of Dr. C. S. Philbrick's drug store at East Corinth, eighteen miles north of here, has been arrested on the charge of causing the fire which destroyed the business portion of that town the night of July 11.

It has been discovered that Gilman had been systematically robbing the drug store, and becoming fearful of detection removed all the valuables from the safe, drilled holes in the lock to make it appear the work of burglars, and then set fire to the building. Gilman, finding his crime known, started for Canada, but, being closely pressed, attempted suicide by jumping into a mill pond, but was pulled out and lodged in jail.

Three Counterfeiters Sent Up.

SPRINGFIELD, Ill., July 19.—In the federal court before Judge Allen, three counterfeiters were found guilty of conspiracy to make and circulate spurious coins. Lewis McFarland got three years hard labor, and John H. Ravenscroft one year each. They all come from Brown county. The evidence went to show that they had been engaged in the business about ten years.

Further Delay in the Burke Case.

OTTAWA, Canada, July 19.—The persons in the Burke extradition matter have been received at the department of justice from a lapse of time being provided for by law an order for extradition can only issue until the 20th inst., and it is the opinion of the minister of justice that there is an opportunity of considering the merits of the case.

"JACK THE RIPPER" AT LARGE.

London Police Entirely at Fault as to the Whereabouts of the Fiend.  
LONDON, July 19.—The police authorities acknowledge to-day they have no clue whatever to the perpetrator of the latest "Whitechapel" murder, and the murderer has disappeared as completely as after the previous outrages.

The excitement over the crime continues.

as intense as ever, and the police are roundly denounced by the people and many English journals for their failure to trace this horrible mystery.

One Madman Kills Another.

TORONTO, Canada, July 19.—Barker Potter, a farmer who is one of the inmates of the Toronto asylum, brutally murdered another inmate at an early hour this morning with a piece of iron with a sharp point. The madman, severed the jugular vein of Hector McDonald while the latter was asleep and then cut the unfortunate man's throat from nearly ear to ear. When a keeper visited the ward Potter said he was Jesus Christ and had killed one of the two thieves. He would, he said, kill the keeper, who was the other thief, and then kill himself. Potter was secured before he did any more damage.

A Bank President Buys "Gold Bricks."

LANSING, Mich., July 19.—A "gold brick" swindler got in his work on William McKellops in this city. McKellops lives at Perry, is president of the First National bank of Corunna, and is interested in many other enterprises, but all his experience did not prevent him from being victimized to the extent of \$8,000. The bricks were brought to Lansing and about thirty-five pounds each. McKellops is worth \$250,000 and is 82 years of age.

Afraid to Capture an Insane Murderer.

PROVIDENCE, R. I., July 19.—Dennis Ryan, who was shot last night on Diamond hill, in the town of Cumberland, died early this morning. His insane murderer, Saladin Cook, is still at large, and the people of the neighborhood are afraid to molest him, as he is fully armed against any attack.

Murderers Granted a Respite.

LITTLE ROCK, Ark., July 19.—William Walker, Joseph Martin, Jack Spaniard, Frank Capel, and Mrs. Elsie James, who were to have been hanged at Fort Smith to-day, have been respite by President Harrison until Aug. 9.

PRIZE FIGHT ARRESTS.

Several Spectators Held in Bonds—Unsuccessful at New York.

NEW YORK, July 19.—John Fitzpatrick, referee, Duell Iman and Pat Duffy, managers of the excursion and prize fight; C. B. Rich, owner of the fighting grounds and Kilrain's host; J. W. Smith, Rich's clerk, who entertained Sullivan the night before the fight; D. A. Gilbert, the lead carpenter, and H. R. Gilbert, sawyer at Rich's mills, have been arrested. The police have been making a search of the rangers, who did guard duty at the fight, gave bail last Monday. Fitzpatrick, Duffy and Iman pleaded not guilty and gave bail in the sum of \$1,500 each. The employees of Rich's mill, before mentioned, were then arraigned and pleaded not guilty. Their bond was fixed at \$250 each. The bonds of all were signed by J. S. Scarborough and J. McLeod, local merchants, and C. W. Rich, the mill owner, and the prisoners were released.

The only sensational development in the District Attorney Norris's case was that charges will be preferred against Sheriff W. J. Coward for receiving a bribe in connection with the prize fight. He says he has the evidence of two grand jurors. The employees of Rich's mill, before mentioned, were then arraigned and pleaded not guilty. Their bond was fixed at \$250 each. The bonds of all were signed by J. S. Scarborough and J. McLeod, local merchants, and C. W. Rich, the mill owner, and the prisoners were released.

HE WANTS MITCHELL.

Detective Norris Arrives in New York with a Requisition for Him.  
NEW YORK, July 19.—Detective Norris of Illinois appeared at the Tombs police court this morning with a requisition from Gov. Lowry of Mississippi for the arrest of Mitchell and Mike Donovan. He had no requisition for Sullivan, Hadden, or Muldoon, and it is said he is acting for revenge in the matter.

## THRICE FATAL EXPLOSION.

A PLANING MILL BOILER'S  
AWFUL WRECK.

The Building Blown to Atoms and Three  
Men Killed—A Day's List of  
Mishaps.

CHICAGO, July 19.—The boiler in the  
planing mill of the R. V. Stone & Lumber  
company on Hoyne and Blue Island av-  
enues, near the south branch of the river,  
exploded at 8:15 o'clock this morning.  
The mill was blown to atoms, scarcely a  
board or sign of the machinery being left.  
The following are the killed:

JEFFERSON KING, engineer, single 125  
Coulter street.  
A. DOLLAR, laborer.  
ERLIND RUFFEL, teamster, May and Nine-  
teenth streets.

Four other employees had most miracu-  
lous escapes and only one was slightly in-  
jured on the head.

The body of the engineer, Mr. King, was  
buried in the debris and was not recovered  
until 9:30 o'clock, when it was discovered  
under a pile of twisted machinery and  
boards.

The outside of the mill when the cata-  
strophe occurred. He was struck by por-  
tions of the flying debris and hurled some  
distance. He was seeking employment  
when killed. He had been working for  
some time.

He was looking for work. A heavy  
portion of the boiler struck the poor fel-  
low on the head and he fell forward, his  
brain being dashed out.

A dozen men were instantly employ-  
ed in the mill, but when the blow-up oc-  
curred there were but five men in the  
building. The engineer and four sawyers.  
How the four men escaped they can never  
tell, but only one of them was at all hurt.

WAS IT THE AIR SHIP?

A Big Balloon Said to Have Been Seen  
by a Pilot.

NEW YORK, July 19.—Pilot Phelan of  
the pilot-boat Caprice, who brought the  
boat back to port, reports that on July 19,  
in latitude 40-50 North, longitude 71-40, he  
sighted from the masthead, at a long dis-  
tance away, a balloon dragging its cable  
along the surface of the water. He gave  
chase to it, but at sundown, when he was  
about three miles from the shore, it col-  
lapsed and disappeared from sight.

PROVIDENCE, R. I., July 18.—At about  
7 o'clock Tuesday evening a big balloon  
passed over this city heading in a direction  
that would have taken it over Buzz-  
ard's bay or Vineyard sound in an hour  
or two. A great many people here believe  
that the balloon was the missing Campbell  
air ship, as no rescuers are known to  
have been made heretofore.

EXPLORED BRUCE LOST.

He Wanted to Photograph a Mirage and  
Disappeared in a Glacier.

SAN FRANCISCO, Cal., July 19.—A dis-  
patch from Juneau, Alaska, of July 12,  
via Victoria, says French and Bruce, two  
miners, recently attempted to photog-  
raph a mirage from different points near Muir  
glacier.

French boarded the steamer Elder in  
Glacier Bay, and reported the loss of  
his partner. He thinks Bruce strayed  
into a crevice, as it was three days after  
his disappearance before the steamer ar-  
rived. There is no chance of recovery.

Bruce is the man who recently sent down  
here a remarkable story of mirage of cities  
which he had photographed from the nega-  
tives which he had obtained. Expert  
photographers here claimed he had used  
an old plate which gave the effects of a  
mirage.

Terrible Poisoning Case in Canada.

CORNOY, Ont., July 19.—A coroner's  
jury has found Mrs. Nellie Brazee guilty  
of poisoning her husband, Brazee, who  
died about a month ago and Mrs. Brazee, who  
was his second wife, said he had com-  
mitted suicide by taking rat poison and died  
in her arms. Lena, Brazee's daughter by  
his first wife, confessed that her stepmother  
had administered the poison in her father's  
food. Brazee was sick for four days, all  
the time suffering intense agony, while his  
wife and daughter remained down stairs  
waiting for him to die.

Six Lumbermen Drowned.

OTTAWA, Ont., July 19.—Joseph Boivin,  
who arrived in this city yesterday on a  
raft of square timber from Upper Ottawa,  
reports that six men were drowned on the  
way here. The names of the men who  
were drowned are not known, but it is  
thought they belong in Quebec. They  
were returning from shanties where they  
had been working for the last six months.

Terrific Hailstorm in Ohio.

NEWARK, Ohio, July 19.—A terrific  
hailstorm occurred in this part of the  
Hocking Valley all the afternoon. A  
cloud burst is reported at Logan, and  
people have become frightened, and many  
families have abandoned their homes to  
find safety on the hillside. Trains have  
been stopped by washouts.

Testimonies of Appraising Tobacco.

NEW YORK, July 19.—The United  
States board of appraisers met yesterday  
and decided that in the appraisement  
of Sumatra tobacco each leaf in the sample  
should be weighed on an apothecary's  
scale, and the average weight obtained.  
If the average weight of each leaf be  
seventy grains or over the duty will be  
7 cents per pound, and if the average weight  
be under seventy grains the duty will be  
35 cents per pound.

W. H. Sherman Undoubtedly Hiding.

BUFFALO, N. Y., July 19.—There is no  
longer any doubt of W. H. Sherman. He  
is hiding, probably in Canada. The  
current rumor is that he is hiding at  
Lewiston, Ont. It was learned that  
Mr. Sherman had been up to the time of  
his going, very ill with inflammation of  
the lungs, and must have been driven to go  
of dire necessity.

OVERMART CORRESPONDENTS.

Their Stories Regarding the Cronin Mur-  
der Were Pure Fabrications.

NIAGARA FALLS, N. Y., July 19.—Care-  
ful investigation shows beyond any doubt  
that the stories concerning the letters re-  
ferred to here at Stamford, Ont., en-  
dorsing the Cronin murder, and the con-  
nection with the body found in the  
whirlpool rapids and to associate it with  
the Cronin murder in Chicago, were pure  
inventions of the correspondents.

The story of the attempt to steal the body of  
an unknown man buried at Wolland, Ont.,  
was also absolutely false, as no such at-  
tempt ever occurred.

The Liberal Has an Increased Majority.

LONDON, July 19.—The Garinshon dis-  
trict has again returned a Liberal member  
of Parliament, the poll at the election  
showing 4,352 votes for Mr. Morgan, Lib-  
eral, and 2,533 for Mr. Drummond, Tory.  
At the last election, when Sir A. Steph-  
ens was elected, the Liberal majority but was  
223.

Forced to Leave Home.

Over 100 people were forced to leave  
their homes yesterday to call for a free  
trial package of Lane's Family Medicine.  
If your blood is bad, your liver and kid-  
neys out of order, if you are constipated  
and have headache and unsightly com-  
plexion, don't fail to call on our druggist  
to-day for a free sample of this grand  
remedy. The ladies praise it. Every-  
one likes it. Large size package 50 cents.

For Hay Fever.

Gave Ely's Cream Balm a trial. This  
justly celebrated remedy for the cure of  
coughs, hay fever, cold in the head, etc.,  
can be obtained of any reputable  
druggist, and may be relied upon as a  
safe and pleasant remedy for the above  
complaints and will give immediate re-  
lief. It is not a liquid, snuff or powder,  
has no offensive odor and can be used at  
any time with good results, as thousands  
can testify, among them some of the at-  
taches of this office. Spirit of the Times.

WOMEN WITH PALE, COLORLESS FACES  
who feel weak and discouraged, will re-  
ceive both mental and bodily vigor by  
using Carter's Iron Pills, which are  
made for the blood, nerves and complex-  
ion.

## PITH OF THE NEWS.

MORE than 300 employees in the silk  
mills at Paterson, N. J., are out, refusing  
to accept a reduction of 10 per cent.

It is reported from Ogleburg, N. Y.,  
that John L. Sullivan and William Mul-  
don have passed down the St. Lawrence  
river.

PRESIDENT PATTON of Princeton was  
given the honorary degree of doctor of  
laws at the recent Harvard commene-  
ment exercises.

CAIT. DANIEL APPLETON has been unan-  
imously elected Colonel of the famous  
Seventh New York, vice Col. Emmons  
Clark, resigned.

PROF. SHEPHERD of Manhattan, Kan.,  
has received the appointment of instructor  
in agriculture at Brisbane, Queensland,  
Australia.

W. B. TATE, a wealthy Tennessee bac-  
calor, has just distributed \$20,000 among  
forty one-legged and one-armed Confed-  
erate soldiers of East Tennessee.

THERE is a shortage in the wheat crop  
of Dakota of from 20,000,000 to 30,000,  
000 bushels, and in many counties there  
has been an almost total failure.

The steamer passengers of the Western-  
land have been landed at Castle Garden  
immigration, and the roughly fomented  
Mathilde Guss, who was discovered to  
have small-pox, has been taken to the ho-  
pital on North Brothers Island.

THE Denver & South Park railroad has  
been sold under foreclosure proceedings at  
Denver, Colo. Representatives of the old  
stockholders were the purchasers. It is  
understood the road will be operated by  
the Union Pacific.

Sundry Mishaps.

JAMES LAMBERT, a stone mason, was  
fatally struck at Bloomington, Ill.  
CLARENCE Q. CLOYD, a student, was  
drowned in a creek near New Janes-  
ville, Wis., while bathing.

A TWO-YEAR-OLD child of Winfield Owen,  
a farmer near Vandalia, Ill., fell into a  
well and was drowned.

O. P. CHENEY'S stables at Columbus,  
Ohio, were struck by lightning and  
burned, together with five valuable horses.  
EUGENE McMANIS was fatally scalded at  
the Clover Leaf company's works at  
Marion, Ind., by falling into a vat of boil-  
ing water.

MARY MACKEN, a domestic in the family  
of C. B. Bickford, on the sixth floor of  
the Ontario building, Chicago, was  
crushed to death by the freight elevator.

Criminal Matters.

CAIT. W. J. BLAKE was fatally stabbed  
at Camden, N. J., by Samuel Fisher, a  
colored seaman, whom the captain had  
kicked.

CHARLES OLDS has been convicted at  
Portland, Oregon, for killing Emil Weber.  
Both men were prominent members of the  
sporting fraternity.

MRS. JOHN McGRIGOR, abandoned by  
her husband and left in destitute cir-  
cumstances, drowned herself and three  
children in a creek near Youngstown,  
Ohio.

It is stated that the gang of real estate  
swindlers which has operated so success-  
fully at St. Paul have extended their op-  
erations quite extensively in Minnesota.

A Local Excursion.

NIAGARA FALLS, N. Y., July 19.—The  
annual excursion season to this place from  
both Eastern and Western points is now  
open, and every week witnesses the arrival  
of large crowds of travelers. A notable  
feature has been introduced in the man-  
agement of these excursions which will un-  
doubtedly do away with the unusual risk  
of such journeys over the ordinary rail-  
way traveling. This feature has been in-  
troduced by the Canadian Pacific, Ham-  
ilton and the Michigan Central roads,  
who, not leaving the excursionists to the  
ordinary risks and delays of railway  
travel, detail certain high officials of the  
roads, who have the utmost experience in  
the management of trains, and the fullest  
power to act in any emergency. The next  
of these personally conducted excursions  
has been arranged to leave Cincinnati  
Aug. 1 at 1 p. m., Indianapolis at 11 a. m.,  
and Dayton at 9 p. m
